3. *Consolidation base*

The consolidated financial statements include the financial statements of the Company and its subsidiaries.

Subsidiary is fully consolidated from the date of acquisition, which is the date the Company obtains control of the subsidiary, and continues to be consolidated until the date it really ceases to have control over the subsidiary.

The financial statements of the Company and its subsidiaries used for consolidation are prepared for the same accounting period, and are applied uniform accounting policies.

Accounts balance of balance sheet between companies in the corporate group, unrealized income and expenses, or unrealized internal gains or losses arising from these transactions are completely eliminated.

Non-controlling interests represent the share of profit or loss in the results of operations and the net assets of subsidiaries that are not held by the Company and are presented in a separate item of the consolidated income statement and consolidated balance sheet.

Effects resulting from changes in subsidiary ownership that do not lose control are recorded in undistributed earnings

IV. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. *Cash and cash equivalents*

Cash comprise cash on hand and cash in banks.

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

Cash equivalents are short-term, highly liquid investments with an original maturity of no longer than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value

2. Inventories

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realizable value.

Net realizable value (“NRV”) represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories, which are valued on a first-in, first-out basis.

Inventory property

Property acquired or being constructed for sale in the ordinary course of business of the Corporate group, rather than to be held for rental or capital appreciation, is held as inventory property at the lower of cost incurred in bringing each property to its present location and condition, and NRV.

Cost of inventory property comprises:

- Freehold and leasehold rights for land;
- Amounts paid to contractors for construction; and
- Borrowing costs; consulting and design costs, ground leveling, compensation and site clearance costs, consulting fees, land transfer taxes, general construction management costs and other related costs.

Net realizable value represents the estimated selling price of real estate in the ordinary course of business, based on market prices at the reporting date and discounted for the time value of money if material, less the estimated costs of completion and the estimated cost of goods sold.

The cost of inventory property sold was recognized in the consolidated income statement based on direct costs of constituting the property and general costs were allocated based on the corresponding area of the property

Provision for obsolete inventories

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods, and other inventories owned by the corporate group, based on appropriate evidence of impairment available at the balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the Consolidated income statement.

3. Receivables

Receivables are presented in the Consolidated financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables that the Corporate group expects that be non-recoverable at the balance sheet date. Increases or decreases to the provision

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

balance are recorded as general and administrative expenses in the Consolidated income statement.

When the doubtful debts are determined to be non-recoverable and the accountant writes off the debt, the differences incurred between the provision for doubtful debts and the original costs of receivables are recorded in the consolidated income statement.

4. *Tangible fixed assets*

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the Consolidated income statement as incurred.

When tangible fixed assets are sold or retired, cost and accumulated depreciation are written off and any gain or loss resulting from their disposal is included in the Consolidated income statement.

5. *Intangible fixed assets*

Intangible fixed assets are stated at cost less accumulated amortization

The cost of an intangible fixed asset comprises its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the Consolidated income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the Consolidated income statement.

Land use rights

Land use right is recognized as an intangible asset when the Group is granted a land use right certificate. The costs of land use right comprise all directly attributable costs of bringing the land lot to the condition available for intended use and are amortized according to the land use term.

Computer software

Computer software which is not an integral part of hardware is recorded as intangible fixed asset and amortized over the term of benefits.

6. *Depreciation and amortization*

Depreciation of tangible fixed assets and amortization of intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Buildings and structures	04 – 30 years
Machinery and equipment	02 – 20 years

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

Means of transportation	03 – 15 years
Management equipment	03 – 10 years
Land use rights	25 – 50 years

7. *Investment properties*

Investment properties are stated at cost including transaction costs less accumulated depreciation and/or amortization. Investment properties held for capital appreciation are not depreciated/amortized but subject to impairment review.

Subsequent expenditure relating to an investment property that has already been recognized is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the corporate group.

Depreciation and amortization of investment properties are calculated on a straight-line basis over the estimated useful life of each asset as follows:

Land use rights	46 years
Buildings	06 - 25 years
Kiosks	06 years

Investment properties are derecognized when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the assets is recognized in the consolidated income statement in the year of retirement or disposal.

8. *Construction in progress*

Construction in progress represents costs attributable directly to the purchase of fixed assets and construction of the corporate group's buildings, assets which have not yet been completed as at the date of these financial statements.

9. *Borrowing costs*

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds

Borrowing costs are recorded as expense during the year in which they are incurred, except to the extent that they are capitalized as explained in the following paragraph

Borrowing costs that are directly attributable to the acquisition, construction or production of a specific asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

10. *Prepaid expenses*

Prepaid expenses are reported as short-term or long-term prepaid expenses on the Consolidated balance sheet and amortized over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses

11. *Investments*

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

Held-to-maturity investments

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognized as an expense in the consolidated financial statements and deducted against the value of such investments.

Investments in associates

The Group's investment in its associate is accounted for using the equity method of accounting. An associate is an entity in which the Corporate group has significant influence that is neither a subsidiary nor a joint venture of the Corporate group. The Corporate group generally deems they have significant influence if they have over 20% of the voting rights in the investee company.

Under the equity method, the investment is carried in the consolidated balance sheet at cost, then adjusted the post-acquisition changes in the Group's share of net assets of the associates. Goodwill arising on the acquisition of the associate is included in the carrying amount of the investment. Goodwill is not amortized and subject to annual review for impairment. The consolidated income statement reflects the share of the post-acquisition results of operation of the associate.

The share of post-acquisition profit/(loss) of the associates is presented in the consolidated income statement and its share of post-acquisition movements in reserves is recognized in reserves. The accumulative post-acquisition movements are adjusted against the carrying amount of the investment. Dividend receivables from associates reduce the carrying amount of the investment.

The financial statements of the associates are prepared for the same reporting period and use the same accounting policies as the corporate group. Where necessary, adjustments are made to bring the accounting policies in line with those of the corporate group.

12. *Payables and accruals*

Payables and accruals are recognized for amounts to be paid in the future for goods and services received, whether or not billed to the corporate group.

13. *Provisions*

Provisions are recognized when the corporate group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions for warranty of constructions

Provision for warranty of constructions and mechanical constructions

Provision for warranty of constructions and mechanical constructions is made for each construction or construction item completed and handed over during the year. When the warranty period for constructions and mechanical constructions expires, the unused balance of provision shall be reversed and recognized in other income.

14. *Foreign currency transactions*

Transactions in currencies other than the corporate group's accounting currency (VND) are

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

recorded at the actual transaction exchange rates at transaction dates which are determined as follows:

Transactions resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;

Transactions resulting in liabilities are recorded at the selling exchange rates of the commercial banks designated for payment.

At the end of the period, monetary balances denominated in foreign currencies are translated at the actual exchange rates at the Consolidated balance sheet dates which are determined as follows:

Monetary assets are translated at buying exchange rate of the commercial bank where the corporate group conduct transactions regularly.

Monetary liabilities are translated at selling exchange rate of the commercial bank where the corporate group conduct transactions regularly.

All exchange differences incurred during the year and arising from the revaluation of monetary accounts denominated in foreign currency at year-end are taken to the Consolidated income statement.

15. Treasury shares

Own equity instruments which are reacquired (treasury shares) are recognized at cost and deducted from equity. No gain or loss is recognized in profit or loss upon purchase, sale, issue or cancellation of the Company's own equity instruments

16. Appropriation of net profits

Net profit after corporate Income Tax is available for appropriation to shareholders after approval by the appropriate in the annual general meeting, and after making appropriation to reserve funds in accordance with the Company's Charter and Vietnam's regulatory requirements.

The Company maintains the following reserve funds which are appropriated from the Company's net profit as proposed by the Board of Administration and subject to approval by shareholders at the annual general meeting.

- *Investment and development fund*

This fund is set aside for use in the corporate group's expansion of its operation or of in-depth investment.

- *Bonus and welfare fund*

This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the Consolidated balance sheet.

17. Revenue recognition

Revenue is recognized to the extent that the economic benefits will probably flow to the corporate group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discounts, rebates and sales returns. The

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

following specific recognition criteria must also be met before revenue is recognized:

Sale of goods

Revenue is recognized when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

Revenue from the sale of real estate in which the Company is the investor is recognized when all five (5) of the following conditions are satisfied simultaneously:

- The real estate has completed and transferred to the buyers; enterprises have transferred risks and benefits associated with ownership of the real estate to the buyers;
- Enterprises no longer hold the right to manage the real estate as real estate's owners or the right to control the real estate;
- The turnover is determined reliably;
- Enterprises have received or will receive economic benefits from the sales of the real estate;
- Costs related to sales of the real estate may be determined.

Revenue from construction contracts

Revenue from construction contracts is recognized in accordance with the corporate group's accounting policy on construction contracts.

Rendering of services

Revenues are recognized upon the completion of the services provided.

Interest

Revenue is recognized as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Dividends

Income is recognized when the corporate group's entitlement as an investor to receive the dividend is established.

Rental income

Rental income arising from operating leases is accounted for in the consolidated income statement on a straight-line basis over the lease term.

18. Construction contract

For the construction contracts specifying that the contractor will receive payments according to the planned schedule, when the outcome of a construction contract can be estimated reliably, revenue and expenses are recognized based on actual physical accomplishments of the project at the balance sheet date.

In case the construction contracts specifying that the contractor will receive payments according to the completed work, when the outcome of a construction contract can be determined reliably and accepted by the customers, revenue and expenses are recognized by reference to the stage of completion of the contract at the balance sheet date which is accepted by the customers.

Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognized to the extent of contract expenses incurred that it is probable will be recoverable. Contract expenses are recognized as expenses in the year in which they are incurred.

Difference between the cumulative revenue of a construction contract recognized to date and the cumulative amount of progress billings of that contract is presented as construction contract receivable or payable based on agreed progress billings in the consolidated balance sheet.

19. Current income tax

Current income tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the balance sheet date.

Current income tax is charged or credited to the Consolidated income statement, except when it relates to items recognized directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the corporate group to set off current tax assets against current tax liabilities and when the corporate group intends to settle its current tax assets and liabilities on a net basis

20. Deferred tax

Deferred tax is provided using the liability method on temporary differences at the balance sheet date between the tax base of assets and liabilities and their carrying amount for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit or loss.

in respect of taxable temporarily differences associated with investments in associates, and interests in joint ventures where timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future

Deferred tax assets are recognized for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilized, except:

where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss.

in respect of deductible temporarily differences associated with investments in associates, and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Previously unrecognized deferred tax assets are re-assessed at

Tien Giang Investment and Construction Joint Stock Company

Notes to the consolidated financial statements

As at 31 March 2026

Currency: VND

each balance sheet date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled based on tax rates and tax laws that have been enacted at the balance sheet date.

Deferred tax is charged or credited to the income statement, except when it relates to items recognized directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company to off- set current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on:

either the same taxable entity; or

when the Company intends either settle current tax liabilities and assets on a net basis or to realize the

assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

21. Related parties

Parties are considered to be related parties of the corporate group if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Corporate group and other party are under common control or under common significant influence. Related parties can be enterprise or individual, including close members of the family of any such individual
